Exiting patient room

EXTEND USE

GOGGLES

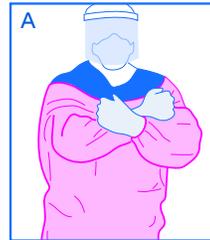

FACE SHIELD

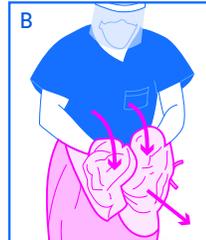

AEROSOLIZATION
PROCEDURES ONLY

Take OFF before exiting patient room

1. Take off gown.

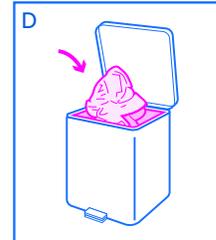

Break neck tie by crossing arms and pulling gown at shoulders.

Pull out arms to turn gown inside out, breaking waist tie.

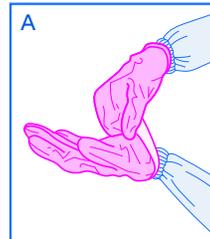

Roll up inside-out gown.

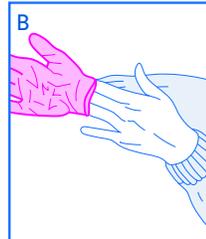

Put in trash.

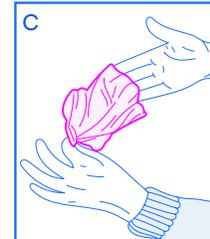

2. Peel off gloves.

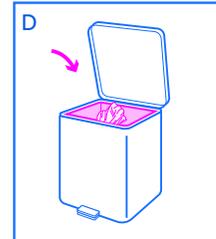

Pinch palm of one hand and pull off.

Use index finger of bare hand to dig under wrist of remaining glove. Pull up.

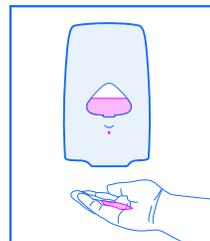

Only touching the inside, pull remaining glove off hand.

Put in trash.

3. Hand hygiene.

4. Exit patient room.

Exit patient room and continue doffing outside of patient room
